

Ultra-Sound Fitness and Body Fat Testing

We will come to your gym for the day.

By appointment or a scheduled day and time period on a first-come-first-service basis.

- ** Very accurate body fat testing and tracking program
- ** BMI results
- ** Health risks for common diseases
- ** Visual form of results and long term goals
- ** Compare scanned images side-by side to earlier scans.
- ** Figures your calories expenditures daily.
- All paid ongoing training programs include:
 - ** Full printed report of results by email or paper.
- ** Compare scanned images side-by side to earlier scans.

Can include a scan of certain body muscles or areas.

Right Thigh View

The left thigh appears to be bigger and more muscular.
